

STUDENT USE OF THE NETWORK AND INTERNET TERMS AND CONDITIONS

Parent or guardian of students under 18 years of age must read and sign this document. Please read carefully before signing this document. This is a legally binding document.

Network and Internet access is now available to students in the Manchester City School District. Our goal in providing this service to students is to promote educational excellence in the Manchester City Schools by facilitating resource sharing, innovation and communication. The Network and Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Students have access to:

1. Electronic mail communication with people all over the world;
2. Information and news from research institutions;
3. Public domain and software of all types;
4. Discussion groups on a variety of topics;
5. Access to many University Library Catalogs, the Library of Congress, CARL and ERIC; and
6. Educational software available on school district file servers.

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of the school setting. Available precautions will be taken to restrict access to controversial materials. However, on a global network it is impossible to control all materials and an industrious user may discover controversial information but the valuable information and interaction available on the worldwide network far outweighs the possibility that users may procure material that is not consistent with the educational goals of this project.

Network and Internet access is coordinated through a complex association of government agencies, and regional and state networks and local school districts. In addition, the smooth operation of the network relies upon the proper conduct of the end user who must adhere to strict guidelines. These guidelines are provided here so that you are aware of the responsibilities you are about to acquire. If a user violates any of these provisions, his/her access may be terminated and future access could be denied. The signature(s) at the end of this document is (are) legally binding and indicates the party (parties) who signed has (have) read the terms and conditions carefully and understand(s) their significance.
